Inderjeet Gill (igill06)

2024 - Summer - Computer Science / W-1 Work

Project Coordinator Internship - Nutreco Canada Inc. (Trouw Nutrition Ontario)

GOALS / LEARNING OUTCOMES DETAILS

Learning Goal 1	
Learning Goal 1	LITERACY - Technological Literacy
Goal 1	My first goal is to understand how to effectively use Amino and M3 together and how they communicate. As I am working on being successful in this area I want to help in creating and executing successful User Acceptance Tests, identifying any bugs during this process, and following up on them.
Action Plan 1	My action plan for this goal is: • To take notes during meetings. •Ask meaningful questions. •Learn by constantly exposing myself to Amino and M3.
Measure of Success 1	My measure of success for this goal is: • Assist in UAT (User Acceptance Testing) and be successful in that. •Being able to work around issues as this project is still being worked on.
Reflection 1	

Learning Goal 2	
Learning Goal 2	COMMUNICATING - Oral Communication
Goal 2	My second goal is to explain the bigger picture of this project as well as expand on its benefits and smaller details. There are many working parts and amazing people who ensure feed is delivered to flocks (birds), and Amino wants to help make it easier for those people.
Action Plan 2	My action plan for this goal is: • Teaching myself by pretending like I am teaching a classroom. •Connecting with different professionals in this process to hear firsthand how everything is being done currently.
Measure of Success 2	My measure of success for this goal is: • Explaining this project to many different kinds of people. • This can include people who are not familiar with technology such as Amino.
Reflection 2	

Learning Goal 3	
Learning Goal 3	Other: PROFESSIONAL & ETHICAL BEHAVIOUR - Personal Organization/Time Management
Goal 3	My third goal is to ensure I am meeting all my deadlines for testing Amino, as me not meeting my deadlines can affect

others. These deadlines are crucial for ensuring the progress of this project.

Action Plan 3	My action plan for this goal is: • Checking my calendar regularly. • Checking my emails regularly. • Planning accordingly to set myself up for success.
Measure of Success 3	My measure of success for this goal is: • Not being behind on work. • Not feeling like I don't have enough time to complete my tasks because I would start as soon as possible.
Reflection 3	

Learning Goal 4

Learning Goal 4	Other: GLOBAL UNDERSTANDING - Civic Knowledge & Engagement
Goal 4	My fourth goal is to understand the different business practices and nuances between provinces that will be using Amino. As an Ontario administrator, there are different ways we do things as simple as naming conventions and how data is organized, so knowing the differences between regions.
Action Plan 4	My action plan for this goal is: • Observing different trends and practices between regions. • Observing similarities to help simplify processes.
Measure of Success 4	My measure of success for this goal is: • Being able to identify the similarities and differences between regions and coming to and understanding as to why.
Reflection 4	

Learning Goal 5

Learning Goal 5	Other: CRITICAL & CREATIVE THINKING - Depth & Breadth of Understanding
Goal 5	My final goal for this summer work term is to fully understand the supply chain of delivering feed to chickens as this is an integral module of Amino. Outside of that knowing how Amino supports businesses especially those who would like a more custom plan for their feed. This goal and project also paints the bigger picture of the start of big tech in multiple sites and that is where a Project Manager can be influential.
Action Plan 5	My action plan for this goal is: • Comparing the way feed is currently being delivered to flocks without Amino to when Amino will be used to do this work. • Understanding the benefits of simplifying the process through technology.
Measure of Success 5	My measure of success for this goal is: • Becoming more comfortable with terminology regarding Amino, M3, supply chain, and Feed delivery.
